- C
- C++
- JAVA
- Springboot
- Python
- Hibernate
- HTML
- CSS
- SQL
- Git & GitHub
- Javascript
- React js
- Docker
- AWS

CODING PLATFORMS

- GeeksforGeeks
- LeetCode
- CodeChef
- Codeforces
- Hackerrank
- Github

ABOUT ME

I am a third-year Computer Science student at Techno Main Salt Lake, Kolkata,West Bengal with a passion for software development and problem-solving.

Passionate about software development, I'm deeply involved in a project that revolves around Spring Boot, where I'm harnessing its capabilities to build robust and scalable applications. Aspiring to be a Full Stack Developer, I thrive on continuous learning and staying ahead of industry trends. I have a track record of tackling challenging coding problems, having completed 400+ questions on platforms like LeetCode and Geeks for Geeks.

PROJECTS

Todo web application   06/2023

- Designed and developed a web application for managing personal tasks using **Spring Boot**, **Java**, **Hibernate, React** and **Bootstrap**.
- Implemented CRUD operations for creating, updating and deleting tasks using **RESTful APIs** and **MySQL** database.
- Implemented user authentication using **JWT**.
- Deployed the project at **AWS**.

githubt link: https://github.com/lalmani-15876/todo-app

Apple Clone   05/2023

A frontend Apple clone website that has the appearance and style of the official Apple website. The website was created using **HTML**, **CSS**, **Bootstrap**, **JavaScript**.

- implemented grid layout with big blocks of images and text that highlight the features and benefits of Apple products.
- designed an absolute positioned navigation bar with links to different sections and products.

Portfolio Website   09/2022

Designed my portfolio website using **React**, **CSS**, **Bootstrap** and **Javascript.**

- implemented toggle button for dark or light mode.
- created form for users to mail me directly.

ACHIEVEMENTS

- Solved over 400 DSA problems on geekforgeeks and leetcode.
- 5 star C++ problem solver at Hackerrank.
- 3 star at CodeChef.
- Web Developer at Google Developer Student Club

CERTIFICATES

- Web devlopment bootCamp from coursera..
- Introduction to Cloud Computing from Coursera..
